

**Message from Managing Director
on Anti – Corruption Measures of Global Green Chemicals Group**

Having been taking seriously into account the significant risks of corruption that could have been carried on the progress of the Company as well as the society and nation, Global Green Chemicals Group (“GGC Group”) is committed to conduct business with integrity, honesty, transparency, and auditability. GGC Group has issued a range of social responsibilities in compliance with a Good Corporate Governance and business code of conduct.

GGC declared of intention on Collective Action Coalition against Corruption (CAC) to ensure all stakeholders that GGC Group has operated under a Good Corporate Governance principle and complies with anti-corruption measure in all forms, The Board of Director has thus consented to assign “**Anti-Corruption Policy**” in accordance CAC’s requirement. In additional, company also published Anti-Corruption policy and guidance in Corporate Governance and Business Code of Conduct handbook, Company’s website and intranet for personnel implementation.

GGC provided a safety channel for employees who ask to report unusual information/situation or fraud and corruption clues. Company will always receive the information with an equally, transparency, fairness and keep significantly confidential information to all parties as mentioned in Whistleblower policy.

GGC trust that all level of personnel would uphold a good business culture in resisting fraud and corruption in compliance with Anti-Corruption Policy for the continuation of further progress and sustainable growth through social.

(Signed)

(Mr. Sekxon Arttamangkura)

Managing Director
